

The **HUD Section 3 Opportunity Portal** is intended to help HUD grantees and Section 3 businesses meet their Section 3 obligations for employment and contracting. The site is to be used by either Section 3 Workers or Employers. Section 3 Workers may use the site to Search for Jobs, post their profile/employment history for companies to search or post their business(es). Employers may use the site for posting opportunities or business(es) or search for Workers to fill positions. Authentication has been implemented using GSA’s Login.Gov service. Login.gov is an authentication service that offers the public secure and private online access to participating government programs, including the HUD Section 3 Opportunity Portal.

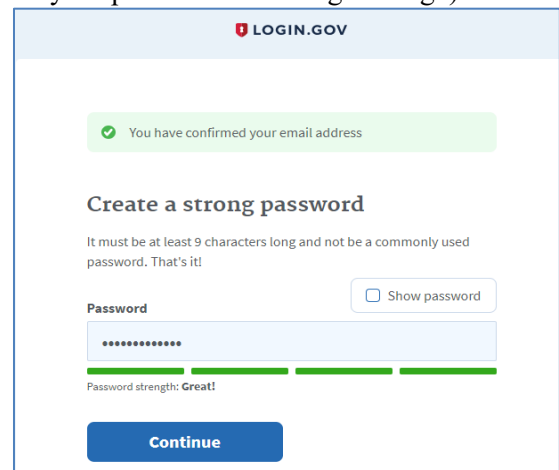

This document will guide the user through the creation of a Login.Gov account, logging into the Opportunity Portal application, and exercising the features that are available to both Section 3 Employers and Workers such as updating contact information, posting an employment profile, posting opportunities and searching for job/contract opportunities.

Create a Login.gov UserID

To access certain features in the Opportunity Portal such as creating a Worker profile so that businesses can search for you, posting Job and Contract opportunities, or search for Workers seeking employment, you must create a Login.gov account. If you only wish to search for open Job and Contract opportunities, you do not need a Login.gov account. To create an account:

- Open a web browser such as Chrome, Edge, Firefox or Safari.
- [Enter] <https://hudapps.hud.gov/OpportunityPortal> in the URL box.

- [Click] the **Create an account** button. *Note: if you already have an account, you can [Click] the Sign in button.*
- Enter your email address in the **Email address** field (Note: this must be a valid email address that you can access at that time), then [Click] **Submit**.
- You can now close the tab or window you are currently working in.
- Go to your email account and look for a new email from no-reply@login.gov with the Subject: Confirm your email and open it.
- In the email, [Click] the **Confirm your email address** button. (Note: this will open in your default browser; if you wish to use a different browser, simply copy this URL and paste it into the browser you wish to use.)
- Create a new password. It must be at least 9 characters long and not be a commonly used password. Type the password into the Password field and [Click] **Continue**. (Note: you will not be able to move forward unless your password is “strong” enough).

- i. Login.gov requires “two factor authentication”, meaning you need to provide an additional way to prove you are the owner of your account when logging in (this adds an additional layer of security to your account). Choose one of the 3 options presented (the simplest is usually Text Message/SMS if you have a cell phone; otherwise, the next simplest is to get a phone call). Then [Click] the **Continue** button.
- j. If you chose Text Message/SMS then enter your mobile phone number in the Mobile phone number field, then [Click] the **Send code button**.
